

# Gaku's Play Guide

## Game Flow

Treasure stones: When you win Replay (blue), Paper (yellow), Watermelon (green), and Cherry (red), you get stones. If you collect four stones, you enter the battle stage!

Battle Stage: It may last 30 games. When you win Watermelon or Cherry, it may lead to the Big Bonus!!

In normal games, you are in one of three backgrounds -- a desert, a cave, and a jungle.

The more you win small prizes (e.g. Replay and Watermelon), the better chance to win the Big Bonus you have!

## Treasure Stones

Get four different colored treasure stones: Replay-blue, Paper-yellow, Watermelon-green), and Cherry-red. That is the key to the Battle Stage!!

Now you are entering the Battle Stage!

### Machine Actions (1)

In each background, you see different enemies. When Lara beats them, you win a prize!

### Machine Actions (2)

The more powerful weapon Lara has, the better chance to win it is!

### Right after a regular bonus

You will enter the Battle Stage 100%!! That is, you have a great chance to win a bonus round again!

### Special Messages

If you have "Chance" or "7" on the LCD, it may lead to the Battle Stage or a bonus round!

### Premium Characters

If you see these characters in normal games, it is a sign for an oncoming bonus round!
